Learning for Life

In our 'Citizenship' curriculum, Year 8 students have been learning about the role of a consumer in a globalised world. Students explored the multifaceted concepts of rights, responsibilities and duties inherent in navigating our interconnected global community. Through examining globalisation from the perspective of both consumers and stakeholders within the supply chain, students have developed an ethical understanding of their roles and responsibilities as global citizens.

Comment

Tan is a very intelligent and capable young man with a diverse range of interests. He is creative and intellectually curious, as well as passionate about sport. This is not quite reflected in his grades from subject teachers, which suggests that Tan is not yet applying himself fully in all subjects.
