Participation

The following are the participation descriptors:

Grade	Descriptor
A+	Insightful and thought-provoking
A	Excellent
B	Good
C	Satisfactory
D	Below average
E	Does not participate at all

Thai A Language and Literature (HL)

Educator: Mr. Kevin Charles

	Grade (1-7)
Term 1 grade	6
Participation	A

Strength(s):

Cake's writing shows a strong understanding of the main themes in *Matthanapatha*, especially the connection between love and suffering. Her character analysis is clear and well-grounded, with thoughtful links to the text's context. The way she uses formal language and literary terms really enhances her analysis. Overall, Cake has demonstrated a knowledgeable approach and excellent critical thinking in her interpretation.

Learning target(s):

Cake can enhance her writing by improving her paper's structure and developing smoother transitions among ideas, which will make her arguments more engaging, especially on topics such as 'beauty and suffering.' More explicit paragraph breaks and greater use of connecting phrases will help the flow. Focusing on short sentences, as well as syntax and spelling, will benefit the quality of her writing.

English B (SL)

Educator: Mr. George Lindstrom

	Grade (1-7)
Term 1 grade	4
Participation	B

Strength(s):

Cake consistently displays a positive attitude towards learning and is open to feedback, making adjustments to improve her work. She has shown strong creativity, producing a high volume of work in her visual-based narrative. Her reading ability and comprehension have notably improved, reflecting her dedication and growth mindset.

Learning target(s):

Cake should focus on strengthening her foundational skills in grammar, sentence structure, and vocabulary to improve writing clarity. Time management and task prioritisation are also areas to work on, which could help her complete assignments more efficiently and to meet deadlines. Continued progress in these areas could support her academic development.

Business Management (HL)

Educator: Mr. John-Charles Trowt

	Grade (1-7)
Term 1 grade	4
Participation	B

Strength(s):

Cake has shown a solid understanding of the course material, effectively integrating terms from Unit 1 on internal and external business environments. She actively participates in class case study investigations, focusing on skill development for the Paper 1 assessment, particularly in analysing and evaluating content.

Learning target(s):

To further improve, Cake should continue developing her English writing, particularly in making evidence-based deductions. In addition, she can structure her writing to show sequential order at the paragraph level as this will help convey her knowledge more clearly.

Biology (SL)

Educator: Mr. Charles Cejka

	Grade (1-7)
Term 1 grade	3
Participation	B

Strength(s):

Cake has recently demonstrated improved engagement with class activities and group discussions. She is able to apply some biological concepts to familiar situations with the help of visual and auditory resources. Cake can apply basic processing techniques to experimental data and occasionally draw appropriate conclusions from graphs.

Learning target(s):

Cake can benefit from creating a glossary of key biological terms and reviewing these prior to summative written assessments. Furthermore, she is encouraged to attempt all assigned data-based questions to practise applying her knowledge to unfamiliar contexts. Cake should develop a study plan to review earlier topics as we will be building upon these in future lessons.

Mathematics Applications and Interpretation (SL)

Educator: Mr. Jayaraman (JP) Purushothaman

	Grade (1-7)
Term 1 grade	3
Participation	C

Strength(s):

Cake demonstrates strong abilities in identifying and analysing patterns within arithmetic and geometric sequences. She is proficient in deriving and applying the general formulas for the n th term of sequences. Additionally, Cake excels at identifying key features of quadratic functions, including intercepts, maxima, minima, and the axis of symmetry, which reflects her analytical skills in graph interpretation.

Learning target(s):

Cake should concentrate on improving her skills in sketching graphs of linear and cubic functions, focusing on both accuracy and a deeper understanding of these concepts. Revisiting the fundamentals of cubic functions will enhance her comprehension of their graph behavior and practical applications.

Group 6: Visual Arts (HL)

Educator: Ms. Diana Clemencia Afanador Vargas

	Grade (1-7)
Term 1 grade	5
Participation	B

Strength(s):

Cake has demonstrated in her work adequate application and manipulation of the media, both in drawing and in painting. Her artwork reflects her own visual interests and she has shown persistence in creating images through which she can convey specific meaning. Cake is in the process of elaborating a personal visual vocabulary based on her personal interests through the exploration of different techniques.

Learning target(s):

Cake would benefit from continuing to practise both her drawing and painting skills focusing on: general outline, use of value, contrast between foreground and background. She is encouraged to experiment further with the different techniques seen in class: acrylic, watercolour and watercolour pencils.
