LATE	0	0	25	0	25

	S1	S2	FINAL
CHINESE JIHONG MA (JENNY)	C	F	F
Ada quickly grasps new concepts and demonstrates a natural talent for pronunciation in Chinese learning activities. While she has shown strong potential, she sometimes struggles with completing her homework and focusing on the teaching activities. By developing a suitable classroom behavior, and pay attention to the teacher's instructions, Ada will reinforce her learning and improve her performance.			
CODING ERMANNO STARITA		A+	A+
Ada has consistently worked hard and maintained excellent behavior in this elective course. Well done, Ada!			
COMPUTER ERMANNO STARITA	A	A+	A
Ada demonstrates strong computer skills. She readily assists her peers and actively participates in class discussions. Her progress in graphic design is particularly commendable. Well done, Ada.			
CREATIVE WRITING 1	C+		
CRITICAL THINKING PAUL IVERSEN	A		A
ENGLISH LANGUAGE ARTS FIRMINA GONCALVES (MINA)	C	C	C
Ada has strong English skills in all areas speaking, listening, reading, and writing. She completes her work well, but she would benefit from being more productive and serious in class. At times, she lacks motivation, which affects her focus and engagement. To continue improving, she should stay more focused, actively participate, and challenge herself to expand her skills further. Spending 20–30 minutes daily on MyON, reading, practicing comprehension, and refining her writing will help her maintain steady progress. With more consistency and effort, she will continue to do well!			
EXPLORING 2D ART 1 LEE VODDEN		B	B
Ada is a great student, and team player. She always helps out during class, and demonstrates a high level of learning. Her creative skills are strong, and she understands technical drawing well. We will continue to focus on her composition, and form, then she can easily achieve the higher grades. Overall, a very helpful, and creative individual.			
MATHEMATICS PAUL IVERSEN	D	D+	D
Ada's increasing quiz performance is evidence of her untapped academic potential, reflecting a growing understanding of the course material. Though homework is an area that requires attention, Ada's ability to engage in class discussions and absorb key concepts showcases her natural intelligence and inquisitive mind. To optimize her learning, Ada should prioritize consistent completion of homework assignments while actively seeking clarification through questions and feedback. By nurturing her natural curiosity and strengthening her ability to ask for assistance, Ada can unlock her full potential as a student, solidifying her knowledge and paving the way for continued academic success.			
PHYSICAL EDUCATION DAVID KEHOE	A	A	A
Ada is doing a great job. Her general class effort is very good and she always does her best in every task with a team or individually. She shows a clear understanding of rules and techniques. Individual skills can improve with more practice in her spare time.			
SCIENCE PAUL IVERSEN	B	B-	B
Ada's intelligence is evident in her exceptional academic performance, achieving both As and Bs consistently. Not only is she gifted with academic aptitude, but Ada also exudes kindness, making her a beloved classmate. However, while Ada's ability to connect with others is admirable, she must remember to prioritize self-respect and discernment when faced with challenging situations. As she continues to grow, Ada must embrace the courage to stand up for her beliefs and maintain a strong sense of self-worth in all aspects of life.

**ACADEMIC SCHOOL YEAR 2024 - 2025
SEMESTER 2 PROGRESS REPORT (1/9 TO 3/20)**

	S1	S2	FINAL
SOCIAL STUDIES SWAN BAY	B	B-	B-
Ada is a good student. She usually pays attention in the class and finishes most of her work on time. She is gifted with good communication/presentation skills. However, Ada is often late for class. Maybe she can be a bit more mindful about her time management. This term, Ada has acquired a good knowledge on broad and intricate topics like 'World Religions' and 'Culture'. Keep up the good work Ada.			
STEM RYAN YANDELL	B-	B-	B-
Ada consistently demonstrates a high level of intelligence and the ability to do well in class. However, she is often disengaged from classroom content. Increasing her participation will allow her to reach her full potential. This quarter, students explored power transmission and linkages, culminating in a team-based project to build an overhead crane. They focused on resource management, design principles, and teamwork roles to understand how these systems function in real-world applications.			
THAI LANGUAGE AND CULTURE RANGSIYA TARATWONGSUK (BOW)	C	C-	C-
Ada has excellent speaking and reading skills and communicates fluently. However, her writing needs improvement in organizing content to be more engaging and cohesive. Practicing writing essays with clear connections between ideas will help. However, she often arrives late to class and frequently asks to use the restroom, disappearing for long periods. She rarely completes the assignments given by the teacher.
