IGCSE Report

Grading criteria

| |
|----|
| A* |
| A |
| B |
| C |
| D |
| E |
| F |
| G |
| U |

Explanation of the grades

Predicted grade: grade student is expected to achieve by the end of year 11

Current grade: grade student is currently producing work at

Effort grade: derived from work completed both in and out of the classroom

Attitude to learning: grade given to reflect enthusiasm for acquiring knowledge

**NYA: not yet assessed*

Effort / Attitude to learning grading system

| | | | | |
|--------------|-----------------|--------------|-----------|-----------|
| Unacceptable | Needs Attention | Satisfactory | Very Good | Excellent |
|--------------|-----------------|--------------|-----------|-----------|

This report reflects Latthawat Phongsupphat's academic performance and personal development over the term. We commend their achievements and encourage continued dedication to their studies.

Headmaster:

Chris Brewer

Date :

4 April 2025

IGCSE First Language English

| | |
|---|---------------------------------|
| Teacher: Sarah Lisowski | |
| Predicted grade: B | Current grade: B |
| Effort: Excellent | Attitude to learning: Excellent |
| <p>This term, we focused on formal versus informal writing, and next term, we will be working on developing language analysis skills. Titan has been improving in writing, reading comprehension, and vocabulary, demonstrating steady progress in his analytical skills. His grasp of implicit meanings in texts we've read has also continued to improve. I am impressed with his effort in class and his commitment to learning. However, he would benefit from additional grammar practice, particularly on IXL, to further refine his accuracy and fluency in writing. Increased reading outside of class will also aid him in acquiring advanced vocabulary. Titan displays good behavior and maintains focus in class, which contributes to his continued progress. Keep up the good work!</p> | |

IGCSE Mathematics (Extended)

| | |
|--|---------------------------------|
| Teacher: Lakshmi Dhumalrao | |
| Predicted grade: A | Current grade: B |
| Effort: Very good | Attitude to learning: Excellent |
| <p>Titan has excelled in all the topics covered this term, showing strong problem-solving skills in trigonometry, algebraic fractions, and inequalities. To improve further, practicing critical thinking questions and working on inequality graphs will be beneficial.</p> | |

IGCSE Biology

| | |
|---|---------------------------------|
| Teacher: Stephanie Nonato | |
| Predicted grade: A* | Current grade: A* |
| Effort: Very good | Attitude to learning: Very good |
| <p>Titan has shown good progress since the beginning of the year. He is a focused and inquisitive student, and he is bringing a positive attitude to school. He exhibits good understanding of the subject matter. He always obtains good score in every end chapter test and completes all his outputs on time. Though possessing a positive attitude toward studies, I will still recommend that he maintains or develop further his skills and knowledge in this subject area. I look forward to working with Titan for the remainder of the school year. It is a pleasure to have him in our class.</p> | |

IGCSE Chemistry

| | |
|---|---------------------------------|
| Teacher: Harry Lee | |
| Predicted grade: A | Current grade: B |
| Effort: Excellent | Attitude to learning: Excellent |
| <p>Titan has made significant progress in chemistry this semester. He exhibits a solid understanding of fundamental concepts. During class discussions, he actively participates and demonstrates a consistent ability to apply learned concepts effectively. Additionally, he shows great initiative when working on laboratory experiments and collaborates well with classmates. To enhance his learning experience further, I recommend that he continues to review key vocabulary terms regularly and seeks additional resources when tackling challenging topics.</p> | |

IGCSE Physics

| | |
|--|---------------------------------|
| Teacher: Richel Maglunsod | |
| Predicted grade: A | Current grade: A |
| Effort: Excellent | Attitude to learning: Excellent |
| <p>Titan has made great progress in Physics this semester, showing a solid understanding of key concepts. He actively participates in discussions, applies his learning effectively, and takes initiative during lab work. He collaborates well with classmates and demonstrates a positive attitude. To support his continued growth, I encourage him to regularly review key terms and seek out additional resources for challenging topics.</p> | |

IGCSE Computer Science

| | |
|--|---------------------------------|
| Teacher: Jonathan Gillespie | |
| Predicted grade: A | Current grade: A |
| Effort: Very good | Attitude to learning: Very good |
| <p>Titan is an intelligent and skilled individual, whose contributions are highly valued in the Computing class. He is a kind and hard-working student, and he is applying great study habits. During Term 2, we studied Computing Inputs and Outputs, Networks and the Internet, Data Transmission and Encryption, Software, Programming Concepts and we completed programming exercises in Python and Pseudocode. The class explored some coding projects using Microbits, which are mini-physical computers, utilising a range of sensors that was a fun activity to reinforce some programming concepts. Titan is exceeding grade level expectations, and we will provide support to encourage continued growth. In general, one area of growth for Titan is more practice of the programming concepts that we've explored. I'm optimistic that he can make excellent progress in this area. It has been a pleasure working with Titan and I wish you a well deserved break ahead.</p> | |

IGCSE Business Studies

| | |
|--|---------------------------------|
| Teacher: Nadine Walker | |
| Predicted grade: A | Current grade: A |
| Effort: Excellent | Attitude to learning: Excellent |
| <p>Titan has made strong progress this term. He is a respectful and diligent student who consistently shows excellent work habits. In Business, Titan is close to meeting grade-level expectations, and we will continue to support his development. One area where Titan can improve is by staying focused during lessons and independent work and avoiding side conversations. I am confident he will make good progress in this area.</p> | |

IGCSE Physical Education

| | |
|---|---------------------------------|
| Teacher: Daniel Raffo | |
| Predicted grade: B | Current grade: C |
| Effort: Satisfactory | Attitude to learning: Very good |
| <p>Progress: Titan has made good progression and is enjoying PE. Target: To improve his football skills. This term we have moved onto different sports such as Swimming, Circuit Training, Netball and Hockey, Handball and Chair-ball to further develop our knowledge and understanding of different sports. We will also be completing the fitness tests at the end of the academic year to look at the data compared from the start of the year to the end of it.</p> | |
